Benchmark	Short-term Fixed Interest Composite Index (STeFI)	Class B7: Restricted	MPIP7	0.35%	0.43	1,051
Fund Size	R 6,455,465,034	Class C: Allinshare Restricted AIMS	MPIPIC	0.95%	1.1	1,050
Income declaration	Quarterly (Mar / Jun / Sep / Dec)					25,481

From 01 Oct 2018 to 30 Sep 2021 0.9% of the value of the MI-PLAN IP ENHANCED INCOME FUND Class B2 was incurred as expenses relating to the administration of the financial product. 0.01% of the value of the financial product was incurred as costs relating to the buying and selling of the assets underlying the financial product. Therefore 0.91% (Total Investment Charge) of the value of the financial product was incurred as costs relating to the investment of the financial product.

* A higher TER does not necessarily imply a poor return, nor does a low TER imply a good return. The current TER may not necessarily be an accurate indication of future TER's. Transaction Costs are a necessary cost in administering the Financial Product and impacts Financial Product returns. It should not be considered in isolation as returns may be impacted by many other factors over time including market returns, the type of financial product, the investment decisions of the investment manager and the TER.

Distributions (Class B2):	GPU
Dec 2020	18.15
Mar 2021	19.69
Jun 2021	19.84
Dec 2020	16.32
Mar 2021	17.89
Jun 2021	18.02
Sep 2021	18.32

The fund's benchmark changed from STeFI Composite x 1.10 to STeFI Composite with effect from 1 February 2021, in keeping with international best practice. STeFI Composite x 1.10 remains the fund's target. The effects on the fund's performance of the ABIL Retention Fund held between 2014 and 2016 are included in the reported performance, as those effects have now dissipated to the point of being negligible.

OBJECTIVE

The objective of the portfolio is to provide a return in excess of Money Market portfolios, for investors seeking to earn a reasonable level of income with low risk of capital loss.

APPLICATION

This fund enjoys a flexible mandate, and the manager will scour opportunities within money market instruments, vanilla bonds, inflation-linked bonds and equities, including listed property. Where good value exists in suitable foreign assets, moderate use may be made of these. The basic premise is that higher returns than money market funds are available, but because the assets that generate these also incur higher risks, they will be used judiciously and cautiously.

FUND MANAGEMENT

Rowan Williams-Short

MSc. FIFM, CFA, CIPM

Portfolio Manager

Vunani Fund Managers

Normal service resumed. After two patchy months, your fund outperformed its benchmark by a considerable margin in November. The dearth of alpha was occasioned by further inflows coupled with a lack of sufficiently attractively valued investments in either the primary or secondary markets. As advised in October's commentary, we were not asleep at the wheel, but toiling away on new investments in private negotiations with borrowers / issuers. We began consummating some of these in November and will do more in December.

Over the years, we have noticed that economists on both the buy and sell sides of the investment industry are adroit at peddling noise as though it were news. Who can blame them? They are motivated to stay employed even if their contributions to investments and the accuracy of their forecasts is debatable. In November, the SARB's MPC raised the repo rate by 0.25% in a 3-2 split of the votes. One could be forgiven for thinking the Titanic had sunk a second time given the volumes of spoken and written words on the topic. Now pause and ask yourself: has a one quarter of one percent change in interest rates made an iota of difference to your life? Of course not, but commentators seeking to protect their employment have already moved onto the next little data release, declaring with misplaced pomposity that "all eyes are on such and such". You'll be pleased to know that our eyes are on your fund, not on noisy distractions.

An analysis of factors affecting the adherence to the policy objective is contained in the fund manager commentary together with performance as reported. A detailed listing of changes from the previous quarter is available on request from info@miplan.co.za or clientservices@ipmc.co.za

Collective Investment Schemes are generally medium to long term investments. The value of participatory interests or the investment may go down as well as up. Past performance is not necessarily a guide to future performance. Collective investment schemes are traded at ruling prices and can engage in borrowing and scrip lending. A schedule of fees and charges and maximum commissions is available on request from the manager. The Manager does not provide any guarantee either with respect to the capital or the return of a portfolio. The Manager retains full legal responsibility for the Fund, regardless of Co-Naming arrangements. Transaction cutoff time is 14:30 daily. Each portfolio may be closed for new investments. Valuation time is 15:00 (17h00 at quarter end). Prices are published daily and available in newspapers countrywide, as well as on request from the Manager. IP Management Company (RF) Pty Ltd is the authorised Manager of the Scheme – contact 021 673 1340 or clientservices@ipmc.co.za. Standard Bank is the trustee / custodian – contact compliance-IP@standardbank.co.za. Additional information including application forms, the annual report of the Manager and detailed holdings of the portfolio as at the last quarter end are available, free of charge, from clientservices@ipmc.co.za. IP Management Company is a member of ASISA. A statement of changes in the composition of the portfolio during the reporting period is available on request. The performance is calculated for the portfolio. The individual investor performance may differ as a result of initial fees, the actual investment date, the date of reinvestment and dividend withholding tax. The fund is invested in portfolios of collective investment schemes that levy their own charges, and which could result in a higher fee structure for the fund.

Investment management has been delegated to Vunani Fund Managers (Pty) Ltd FSP number 608 and Miplan (Pty) Ltd FSP 9383.

The portfolio may include foreign investments and the following additional risks may apply: liquidity constraints when selling foreign investments and risk of non-settlement of trades; macroeconomic and political risks associated with the country in which the investment is made; risk of loss on foreign exchange transactions and investment valuation due to fluctuating exchange rates; risk of foreign tax being applicable; potential limitations on availability of market information which could affect the valuation and liquidity of an investment. All of these risks could affect the valuation of an investment in the fund.

Disclosure: MI-PLAN has a 37% ownership interest in IP Management Company (RF) (Pty) Ltd. IP Management is a registered Collective Investment Manager in terms of CISCA and performs administrative functions on co-branded MI-PLAN IP unit trusts for which it receives contracted fees. In terms of its licence, IP Management Company may not conduct any other business other than the business of running a Collective Investment scheme. Accordingly, all intermediary service and advice where applicable, is provided by MI-PLAN in terms of its licence for which remuneration is paid from the fees mandated in the supplemental deed and disclosed herein. MI-PLAN offers investors a unique liability matching offering that matches the client's portfolio to their unique needs as documented at www.miplan.co.za. The complexity and uniqueness of this process and variability of each client's needs, required that technology be used to embed MI-PLAN's intellectual property in the financial service offering. In delivering this financial service, software is provided by MI-PLAN to advisers that determines a liability matched asset allocation, constructed using MI-PLAN IP funds. The design of the MI-PLAN software is based on the premise that the 25% allocated to MI-PLAN funds that provides the client with a foundation on which to choose other funds as mapped into the MI-PLAN software. As it's important to match the choice of product with the advice benchmark included in the MI-PLAN software should less than 25% of the clients product choice be directed to funds that are not similar to the MI-PLAN suite of funds, that a risk of a disconnect exists between the benchmark created and product choice. No fee is charged for the software and no obligation is placed on the advisor to offer, continue to offer, or offer to a minimum number of clients, this financial service. There are no other conditions placed on the advisors for the continued use of such technology that may influence the objective performance of the advisor. The advisor's obligations to render unbiased, fair advice in the best interests of you, the client, remains with your advisor. Your advisor's obligation is to compare this financial offering against all others and ensure it is the most appropriate for your needs.
